## 1947 HEMEROCALLIS Listing

AMARYLLIS GARDENS, 15 Screven Ave., N. E. Atlanta, Ga.

HEMEROCALLIS (day lilies) are extremely hardy, does well in any type soil, in shade (not dense) or full sun. The new hybrids, with their prolonged blooming season have their place in all well appointed gardens. They have no off seasons, never too wet or dry, neglect does not prevent blooming. An ideal plant for those with limited garden work hours.

Many have two blooming periods, others bloom continuously all summer. They are truly most colorful, yellow from palest yellow to deep orange, bright red to deep mahogany, maroon to black, others with combinations of pink, rose, purple, pastels and bicolors.

We cross polinate our higher price plants in view of producing new shades and markings. Our seed surplus can be had @ \$2.00 a hundred. 1 year seedling plants \$2.50 pr doz. 2 year @ \$3.50. A color range of unlabeled blooming size plants \$5.00 dozen.

Several years ago we dispensed with chemical fertilizers. We use the Indoor Method of composting. This compost is the IDEAL plant food, earlier and longer blooming season, better branched flower scapes, more blooms and finer quality. My files contain many letters vouching for this statement.

Each season many letters are received from those never having seen the new colors. To those flower lovers I make a SPECIAL COLLECTION of a very fine color range. 2 Purple Waters, 2 SANTA FE. 2 Pride Of Houston, 1 Spitfire, 1 Mary Guenther, 1 Old Vintage and 1 Seven Seas. All 10 plants labeled, shipped postpaid for \$10.00. In making this most liberal offer I feel sure hemerocallis will be introduced into many gardens and look for future orders.

GARDEN CLUBS, DEALERS, PARK & CEMETARY Superintendents please note. The ab 7 plants are fast multipliers and until my surplus is disposed of I offer 6 of a kind for \$6.00 - 1 dozen \$10.00 - 2 dozen \$18.00. Attractive quotations on larger

lots.

\* Indicates stock limited, late orders please give substitute. \*\*\* 3 for the price of two.
